Summary information

Repository:	Northern BC Archives & Special Collections
Title:	Pacific Great Eastern Railway Region Photograph Collection
Reference code:	2020.08
Date:	[between 1905 and 1926] (date of creation)
Language:	English
Physical description:	93 photographs : b&w

Scope and content

This collection consists of photographs and "real photo" postcards that depict the construction and operation of the Pacific Great Eastern Railway line, communities nearby the railway line, and regional geography of areas adjacent to the PGE line.

Notes

Title notes

Physical condition

The photographs are in poor condition. They were received adhered to acidic paper (possibly excerpted from an album). The prints are discoloured, brittle, warped, and cracked, with corners and edges missing in some cases. Remains of the acidic paper and glue exist on photograph verso. Many of the prints were covered in a significant amount of masking tape, which has been removed.

Alternative form available

Photographs are digitized and available in high-resolution TIFF and JPEG formats.

Restrictions on access

No restrictions.

Conditions governing use

Personal or academic use of materials is welcomed under the standard fair use and educational use clauses of Canadian Copyright Law. Commercial use is, however, forbidden without the express

permission of the copyright holder. For information on obtaining written permission from the copyright holder, please contact the Northern B.C. Archives and Special Collections.

Item: 2020.08.01 - Passenger ferry "MV Ballena"

Title: Passenger ferry "MV Ballena"

Reference code: 2020.08.01

Date: [between 1914 and 1920] (date of creation)

Scope and content:

Photograph depicts the "MV Ballena" docked at a wharf. The Ballena was a passenger ferry built in 1892 by the Albion Iron Works Company of Victoria and originally named the Joan. This ship was sold to the Terminal Steam Navigation Company in 1914 and renamed the Ballena. It was later acquired by the Union Steamship Company in 1920 but burned at the Union dock in November of that year.

Physical description: 1 photograph : b&w

Note [sourcesDescription]:

Sources: Information about the "Ballena" from the Vancouver Maritime Museum ship file <https://www.vmmcollections.com/Detail/collections/7264>

Physical condition:

Photograph received adhered to acidic paper (possibly excerpted from an album). Item is in poor condition: discoloured, brittle, warped, and cracked. Remains of the acidic paper and glue exist on photograph verso.

Alternative form available:

Item is digitized and available in high-resolution TIFF and JPEG formats. Digital access JPEG available here has been retouched for increased visibility.

Restrictions on access:

No restrictions.

Conditions governing use:

Personal or academic use of materials is welcomed under the standard fair use and educational use clauses of Canadian Copyright Law. Commercial use is, however, forbidden without the express permission of the copyright holder. For information on obtaining written permission from the copyright holder, please contact the Northern B.C. Archives and Special Collections.

Item: 2020.08.03 - Pacific Great Eastern Railway train at Squamish dock

Title: Pacific Great Eastern Railway train at Squamish dock

Reference code: 2020.08.03

Date: [between 1915 and 1918] (date of creation)

Scope and content:

Photograph depicts a Pacific Great Eastern Railway train on the original dock at Squamish (Newport); the vessel in the distance behind the warehouse is quite likely the "MV Ballena", the subject of photograph 2020.08.01.

The equipment shown in this photograph is: Locomotive 51 or 52, built by Montreal Locomotive Works in 1913; caboose C-1, built by National Steel Car, Hamilton, Ontario in 1914; baggage-mail car 51 or 52; passenger coach 2, 3 or 4; and an unknown flat car outfitted as a sightseeing car with canopy. The time-frame for the photograph is between June 8, 1915 (when baggage-mail cars 51 & 52 arrived at Newport Dock) and some time in 1918 (when caboose C-1 was re-numbered to 1801).

Additional information on baggage-mail cars 51 & 52 and coaches 2, 3 & 4:

Baggage and mail cars 51 and 52 were purchased from E.H. Wilson & Co. of Philadelphia at a total cost of \$2806.74 each. They were received on line June 4, 1915 and were barged to Newport on June 8. These cars had a length of 64 ft. over buffers, an inside length of 60 ft. and an inside width of 9 ft. 2½ in. and rode on 6-wheel trucks. Although not confirmed, these cars are believed to be of Pennsylvania Railroad heritage with PRR Class MM baggage and mail cars being the most likely candidates. Certainly, all the other cars purchased from E.H. Wilson & Co. were ex-Pennsylvania and the gasoline lighting system with which these cars were delivered was used extensively by the PRR. Coaches 2, 3, & 4 are former Pennsylvania Railroad Class "PK" closed vestibule coaches #s 3077, 3080, & 3092 which were received on June 10, 1914 after being purchased from E.H. Wilson & Co. for \$3859.11, \$3858.87 & \$3858.87 respectively. They were built by the PRR in 1905, 3070 and 3088 at Altoona Car Shops and 3092 at the Wilmington, Delaware shops of subsidiary Philadelphia, Baltimore and Washington. All had been assigned to P.B. & W. service. The Official Railway Equipment Register lists these cars as 62 ft. long with a capacity of 60 passengers.

Physical description: 1 photograph : b&w

Note [sourcesDescription]:

Information about this photograph and the equipment provided by Greg Kennelly, amateur PGE historian, based the following sources:

- * Notes regarding the PGE railway passenger cars compiled by Eric Prince Stathers, who served as Wrecking Foreman, General Car Foreman, and Superintendent of Car Equipment for the PGE from 1929 to 1965
- * "Pacific Great Eastern Railway Equipment Register" held at BC Archives (includes information about date of purchase, price paid, and vendor name for many of the cars)
- * "Scows and Barges Arriving at Newport Dock" held at the Archives of the West Coast Railway Museum in Squamish
- * Ernie Plant's photographs of Coach #2 and one other at Squamish in 1937 and Coaches #2 and 4 lettered "B & B No. 1" near Quesnel in 1946 show cars consistent with both Stathers' description and Pennsylvania Class "PK" records.
- * The late Bill Hewlett's notes indicate that "Stathers' List" shows Coaches 2 and 4 with "B & B No. 1" and Coach #3 with the Ditcher in 1949.
- * A photograph from an unknown source in an album assembled by John Cooshek carries the notation "Newly purchased Coach #2 in 1915" on the back.

Physical condition:

Photograph received adhered to acidic paper (possibly excerpted from an album). Item is in poor condition: discoloured, brittle, warped, and cracked. Remains of the acidic paper and glue exist on photograph verso.

Location of originals:

The original negative for this photograph is believed to exist in the collection of Edward (Ted) Luke, a former PGE employee and the author of "A Railway a Small Town and Me". Additional prints of this photograph exist in other collections.

Alternative form available:

Item is digitized and available in high-resolution TIFF and JPEG formats. The digital access JPEG available here has been retouched for increased visibility.

Restrictions on access:

No restrictions.

Conditions governing use:

Personal or academic use of materials is welcomed under the standard fair use and educational use clauses of Canadian Copyright Law. Commercial use is, however, forbidden without the express permission of the copyright holder. For information on obtaining written permission from the copyright holder, please contact the Northern B.C. Archives and Special Collections.

Title: Logging, Newport, BC

Reference code: 2020.08.21

Date: [between 1911 and 1914] (date of creation)

Scope and content:

Photograph depicts the unloading of logs from rail cars into the Mamquam River Blind Channel in Squamish (then Newport). The valley bottom around Squamish was logged from Mamquam River north to across the Cheakamus River before the construction of the Pacific Great Eastern Railway.

Physical description: 1 photograph : b&w

Language of the material:

English

Note [sourcesDescription]:

Additional descriptive information sourced from Squamish History Archives for a similar photograph:

Item: 2020.08.25 - PGE Railway tunnel along Anderson Lake

Title: PGE Railway tunnel along Anderson Lake

Reference code: 2020.08.25

Date: [between 1913 and 1923] (date of creation)

Scope and content:

Photograph depicts a Pacific Great Eastern Railway tunnel along Anderson Lake. The current railway mileage for the location is 125.6 (historical mileage point would have differed). The location is 3.7 miles north of D'Arcy, near the southern end of Anderson Lake. This photograph was likely taken from vantage point of the summer-only Highline Road.

Item: 2020.08.27 - People on the Seton Lake dock

Title: People on the Seton Lake dock

Reference code: 2020.08.27

Date: [between 1915 and 1920] (date of creation)

Scope and content:

Photograph depicts a group of men, women, and children on the dock at the east end of Seton Lake. Two boats are docked, awaiting passengers. Another group of people are seated in a third boat on the far side of the dock. In the background, the PGE railway grade is visible, dating this photograph on or after 1915. The Seton Lake sawmill is also visible in the background.

Title: Dominion Day event on Lillooet Main Street

Reference code: 2020.08.38

Date: [between 1912 and 1916] (date of creation)

Scope and content:

Photograph depicts an event on Lillooet Main Street with spectator crowds. The Union Jack and Canadian Red Ensign flags suggest this may be a Dominion Day event. The Lillooet community put on large, multi-day Dominion Day events between 1912 and 1916 with many planned activities. The particular activity depicted in this photograph may be a horse race or rodeo-type event. Main Street businesses visible include the Lillooet Restaurant, the Lillooet Pool Hall, and the "OK" Baths.

Item: 2020.08.39 - Seton Lake Fish Hatchery

Title: Seton Lake Fish Hatchery

Reference code: 2020.08.39

Date: [between 1905 and 1909] (date of creation)

Scope and content:

Photograph depicts the Seton Lake hatchery building constructed by the British Columbia provincial government in 1903.

Additional photographs and information about this construction is provided in the Fisheries Commissioner's Report for that year:

"In October, 1902, bids were invited for the construction of a hatchery building and Superintendent's cottage on Lake Creek, the outlet of Seton Lake, near the village of Lillooet. There were six bidders. A contract was let to W. Duguid, of Lillooet, the lowest bidder, in November. The buildings were completed and accepted in March, 1903. The hatchery building is a substantial wooden structure 210 feet long by 40 feet wide. The roof is supported by the walls, thus giving a clear floor space for the 160 hatching troughs, which are each 16 feet long, 16 inches wide and 7 inches deep. Two troughs are placed end to end and extend the width of the building, and receive the water from the head flumes which run lengthwise of the building. The equipment permits of the handling of forty million eggs. The water supply is taken from Lake Creek at a point some 1,400 feet from the hatchery, and about the same distance from Seton Lake, by means of a wooden flume three feet wide and two feet deep. A comfortable cottage for the Superintendent and a boarding-house for the other employees were constructed and furnished. The station in all its equipment is modern, and is not excelled by any other on the coast..."

Hatchery operations were terminated in Seton Creek in 1915 because the salmon runs had been almost destroyed.

Title: Dominion Day event on Lillooet Main Street

Reference code: 2020.08.40

Date: [between 1912 and 1916] (date of creation)

Scope and content:

Photograph depicts an event on Lillooet Main Street with spectator crowds. The Union Jack and Canadian Red Ensign flags suggest this may be a Dominion Day event. The Lillooet community put on large, multi-day Dominion Day events between 1912 and 1916 with many planned activities. The particular activity depicted in this photograph appears to be a horse race event. Main Street businesses visible include the Lillooet Restaurant and the "C.A. Phair General Merchant" store.

Physical description: 1 photograph : b&w

Language of the material:

English

Note [sourcesDescription]:

The Lillooet Prospector newspaper describes Dominion Day events in great detail: <https://open.library.ubc.ca/collections/bcnewspapers/proslill>

Note [generalNote]:

Part of the Pacific Great Eastern Railway Region Photograph Collection

Physical condition:

Photograph received adhered to acidic paper (possibly excerpted from an album). Item is in poor condition: discoloured, brittle, warped, and cracked. Remains of the acidic paper and glue exist on photograph verso.

Alternative form available:

Item is digitized and available in high-resolution TIFF and JPEG formats. Digital access JPEG available here has been retouched for increased visibility.

Restrictions on access:

No restrictions.

Conditions governing use:

Personal or academic use of materials is welcomed under the standard fair use and educational use clauses of Canadian Copyright Law. Item: 2020.08.41 - Grave

Title: Grave

Reference code: 2020.08.41

Date: [between 1910 and 1920] (date of creation)

Scope and content:

Photograph depicts a grave, covered in flowers and surrounded by snow. The grave is marked with what appears to be cement grave markers bordering the burial. The location of the grave is unknown.

Physical description: 1 photograph : b&w

Note [generalNote]:

Part of the Pacific Great Eastern Railway Region Photograph Collection

Physical condition:

Photograph received adhered to acidic paper (possibly excerpted from an album). Item is in poor condition: discoloured, brittle, warped, and cracked. Remains of the acidic paper and glue exist on photograph verso.

Item: 2020.08.42 - Spectators sitting in the shade

Title: Spectators sitting in the shade

Reference code: 2020.08.42

Date: [between 1912 and 1916] (date of creation)

Scope and content:

Photograph depicts a row of spectators wearing nice clothing, sitting on the curb in the shade of mature chestnut trees. Many of the spectators appear to be Indigenous women and children. They may be gathered to watch a parade or special event. There are Union Jacks and Canadian Red Ensign flags hanging in the trees, suggesting the event may be a Dominion Day event. Although the location is unknown, the presence of the chestnut trees suggests that this may have been taken on Lillooet Main Street.

Item: 2020.08.43 - PGE Jordan Spreader in operation

Title: PGE Jordan Spreader in operation

Reference code: 2020.08.43

Date: [between 1913 and 1923] (date of creation)

Scope and content:

Photograph depicts an early model Jordan Spreader used in the construction of the Pacific Great Eastern Railway. A railway worker is standing on the spreader. The stencil on equipment states "P.G.W.R.R.". The flora suggests that this photograph may have been taken somewhere in the Lillooet/Clinton area.

Item: 2020.08.44 - Pacific Great Eastern Railway train on Pavilion Creek trestle

Title: Pacific Great Eastern Railway train on Pavilion Creek trestle

Reference code: 2020.08.44

Date: [between 1915 and 1918] (date of creation)

Scope and content:

Photograph depicts a Pacific Great Eastern Railway train on Pavilion Creek trestle at Mile 20.3. The train includes Locomotive #56, built by Canadian Locomotive Company of Kingston, Ontario, in August 1914, together with caboose C2, built by National Steel Car of Hamilton, Ontario in 1914 and a "Hart Convertible Car" #140 stencilled with indeterminable initials. These cars were convertible gondolas which were used as ballast cars with the ability to dump ballast either between or outside the rails depending on whether the centre floor doors or the side doors were opened. This particular car, which was scrapped in 1949, was part of a group of 15 cars remaining in number series 131 - 195 (not all numbers used) known on the PGE as "Red Harts" to distinguish them from a somewhat more modern version in number series 201 - 240 (again, not all numbers used) known as "Black Harts". The ca. 1921-1927 "PGE Bridge List" from the notebook of William H. Hewlett (1914-1968) references a 389.4 foot long, 34 ft. high, framed trestle with 26 spans of 14.8 feet at Mile 20.3 carrying the line over Pavilion Creek. There was a water tank at Pavilion located between the North end of the siding and the South end of the trestle. A track profile chart confirms that the track at this point is on a 12 degree curve.

"Canadian Railway and Marine World" reported in their January 1916 issue (p. 11, c.1), that track had been laid to within ½ mile of Clinton (Mile 45.0) on Dec. 14, 1915. If a constant rate of construction had been maintained from Mile 14, reached on July 30, 1915 as previously discussed, to Clinton, the approximate date of completion to Pavilion would be around the end of August, 1915 which is probably the earliest possible date for this photograph.

Item: 2020.08.45 - Pacific Great Eastern Railway work train

Title: Pacific Great Eastern Railway work train

Reference code: 2020.08.45

Date: [between 1913 and 1923] (date of creation)

Scope and content:

Photograph depicts a Pacific Great Eastern Railway locomotive, caboose (C2), and train cars operating as a work train, possibly on the south side of the Sallus Creek cut. A steam shovel may be loading gravel to or from the train cars. Location appears to be around the Lillooet area. The locomotive appears to be #56, a Canadian Locomotive Corporation 2-8-0, which was later lost in an Anderson Lake accident on August 8, 1944.

Item: 2020.08.59 - Boaters on Alta Lake

Title: Boaters on Alta Lake

Reference code: 2020.08.59

Date: [between 1913 and 1923] (date of creation)

Scope and content:

Photograph depicts a man and a woman in a row boat on Alta Lake.

Physical description: 1 photograph : b&w

Note [sourcesDescription]:

Information provided by Greg Kennelly, amateur PGE historian

Physical condition:

Photograph received adhered to acidic paper (possibly excerpted from an album). Item is in poor condition: discoloured, brittle, warped, and cracked. Remains of the acidic paper and glue exist on photograph verso.

Alternative form available:

Item is digitized and available in high-resolution TIFF and JPEG formats.

Restrictions on access:

No restrictions.

Conditions governing use:

Personal or academic use of materials is welcomed under the standard fair use and educational use clauses of Canadian Copyright Law. Commercial use is, however, forbidden without the express permission of the copyright holder. For information on obtaining written permission from the copyright holder, please contact the Northern B.C. Archives and Special Collections.

Item: 2020.08.64 - Sallus Creek railway trestle with Mr. Crysedale on velocipede

Title: Sallus Creek railway trestle with Mr. Crysedale on velocipede

Reference code: 2020.08.64

Date: [1915?] (date of creation)

Scope and content:

Photograph depicts Mr. Crysdale sitting on a velocipede on the Sallus Creek ("14 Mile") Pacific Great Eastern Railway trestle with an estimated date of very late July 1915 or later. "Canadian Railway and Marine World" reported that track had been laid to 14 miles North of Lillooet by July 30, 1915 (CR&MW , Sept 1915, p341, c2). 14 miles North of Lillooet is approximately 20 rail lengths beyond the North end of this trestle, leading to a "best estimate" of very late July 1915 as the earliest date for this photograph. The velocipede depicted is a 3-wheel, manually propelled vehicle operated by a push-pull (back & forth) action on the actuating handle.

The ca. 1921-1927 "PGE Bridge List" from the notebook of William H. Hewlett (1914-1968) references a Mile 13.7, 14 Mile Creek, frame trestle, 905 ft. long, 182 ft. high, 61 spans of 14.8 feet in the Lillooet Subdivision. A "PGE Track Profile" drawing shows this trestle was on a 1.55% grade and a 12 degree left hand curve. While the drawing had been revised at least twice (with an unknown date for the most recent revision), the pre-"Lillooet Diversion of 1931" mileage figures confirm that the 1915 "Mile 13.7" was in agreement with a more recent hand written note "Sallus Creek". The trestle appears to have gone by the names "14 Mile" trestle, "13.7 Mile Trestle", and "Sallus Creek" trestle.

Physical description: 1 photograph : b&w

Item: 2020.08.65 - Sallus Creek railway trestle construction

Title: Sallus Creek railway trestle construction

Reference code: 2020.08.65

Date: [1915] (date of creation)

Scope and content:

Photograph depicts a partially constructed Pacific Great Eastern Railway trestle located near Sallus Creek in the area around Lillooet, Fountain, and Pavilion. "Canadian Railway and Marine World" reported that track had been laid to 14 miles North of Lillooet by July 30, 1915 (CR&MW , Sept 1915, p341, c2). 14 miles North of Lillooet is approximately 20 rail lengths beyond the North end of this trestle, leading to a "best estimate" of early-mid July 1915 as the latest date for this photograph. The ca. 1921-1927 "PGE Bridge List" from the notebook of William H. Hewlett (1914-1968) references a Mile 13.7, 14 Mile Creek, frame trestle, 905 ft. long, 182 ft. high, 61 spans of 14.8 feet in the Lillooet Subdivision. A "PGE Track Profile" drawing shows this trestle was on a 1.55% grade and a 12 degree left hand curve. Item: 2020.08.66 - Sallus Creek railway trestle

Title: Sallus Creek railway trestle

Reference code: 2020.08.66

Date: [1915?] (date of creation)

Scope and content:

Photograph depicts the Pacific Great Eastern Railway trestle located near Sallus Creek in the area around Lillooet, Fountain, and Pavilion. A number of men are working along the trestle, possibly completing final construction work or performing repairs. "Canadian Railway and Marine World" reported that track had been laid to 14 miles North of Lillooet by July 30, 1915 (CR&MW , Sept 1915, p341, c2). 14 miles North of Lillooet is approximately 20 rail lengths beyond the North end of this trestle, leading to a "best estimate" of very late July 1915 or later as the earliest dates for this photograph.

Item: 2020.08.68 - Work train on Sallus Creek railway trestle

Title: Work train on Sallus Creek railway trestle

Reference code: 2020.08.68

Date: [1915] (date of creation)

Scope and content:

Photograph depicts a Pacific Great Eastern Railway work train on a trestle located near Sallus Creek in the area around Lillooet, Fountain, and Pavilion. The work train appears to be carrying railway workers and a load of rails.

Photographs 2020.08.68, 2020.08.69, and 2020.08.70 are three views of track laying on the Sallus Creek trestle. These form a sequence: 2020.08.68, 2020.08.70, 2020.08.69 in order as track laying proceeds from the South end of the trestle toward the North end. The piece of equipment at the North end of the train in all three images is a track laying machine that lifted a piece of rail and delivered it to the workmen ahead of the machine. "Canadian Railway and Marine World" reported that track had been laid to 14 miles North of Lillooet by July 30, 1915 (CR&MW , Sept 1915, p341, c2). 14 miles North of Lillooet is approximately 20 rail lengths beyond the North end of this trestle, leading to a "best estimate" of late July 1915 as the date for this photograph.

Title: View of Seton Lake area

Reference code: 2020.08.77

Date: [between 1911 and 1915] (date of creation)

Scope and content:

Photograph depicts a view of Seton Lake and the surrounding area, including the Pacific Great Eastern railway line. The railway grade is visible at left. Also visible is the Seton Lake fish hatchery at the east end of the lake and its employee boarding house, superintendent's cottage, and weir at the head of what was then referred to as "Lake Creek". The road seen in the centre foreground travelled from Lillooet to Seton Lake then to Golden Cache Mine.

Item: 2020.08.82 - Pacific Great Eastern Railway train on Pavilion Creek trestle

Title: Pacific Great Eastern Railway train on Pavilion Creek trestle

Reference code: 2020.08.82

Date: [between 1915 and 1917] (date of creation)

Scope and content:

Photograph depicts a Pacific Great Eastern Railway train on Pavilion Creek trestle at Mile 20.3. Also visible are a water tank and possibly the graveyard at Pavilion.

The ca. 1921-1927 "PGE Bridge List" from the notebook of William H. Hewlett (1914-1968) references a 389.4 foot long, 34 ft. high, framed trestle with 26 spans of 14.8 feet at Mile 20.3 carrying the line over Pavilion Creek. There was a water tank at Pavilion located between the North end of the siding and the South end of the trestle. A track profile chart confirms that the track at this point is on a 12 degree curve. This photograph was taken from a vantage point up the hill to the North. The structures at the lower left of this image (2020.08.82) are consistent with a small construction camp, which accounts for the presence of a camp cook in image 2020.08.83.

"Canadian Railway and Marine World" reported in their January 1916 issue (p. 11, c.1), that track had been laid to within ½ mile of Clinton (Mile 45.0) on Dec. 14, 1915. If a constant rate of construction had been maintained from Mile 14, reached on July 30, 1915 as previously discussed, to Clinton, the approximate date of completion to Pavilion would be around the end of August, 1915 which is probably the earliest possible date for this photograph.

Item: 2020.08.83 - Pacific Great Eastern Railway work train on Pavilion Creek trestle

Title: Pacific Great Eastern Railway work train on Pavilion Creek trestle

Reference code: 2020.08.83

Date: [between 1915 and 1917] (date of creation)

Scope and content:

Photograph depicts a Pacific Great Eastern Railway work train on Pavilion Creek trestle at Mile 20.3. laden with workers, railway ties, and a steam donkey. The work train may be returning to a work camp, as a man dressed in the attire of a camp cook is standing beside the track.

The ca. 1921-1927 "PGE Bridge List" from the notebook of William H. Hewlett (1914-1968) references a 389.4 foot long, 34 ft. high, framed trestle with 26 spans of 14.8 feet at Mile 20.3 carrying the line over Pavilion Creek. There was a water tank at Pavilion located between the North end of the siding and the South end of the trestle. A track profile chart confirms that the track at this point is on a 12 degree curve. This photograph was taken at trackside. The structures at the lower left of image 2020.08.82 are consistent with a small construction camp, which accounts for the presence of a camp cook in this image (2020.08.83).

"Canadian Railway and Marine World" reported in their January 1916 issue (p. 11, c.1), that track had been laid to within ½ mile of Clinton (Mile 45.0) on Dec. 14, 1915. Item: 2020.08.84 - Alta Lake

Title: Alta Lake

Reference code: 2020.08.84

Date: [between 1913 and 1923] (date of creation)

Scope and content:

Photograph depicts a couple in a row boat (likely the same couple depicted in image 2020.08.59) near Alta Lake shore docks and buildings. A rail line and a railway water tower are visible in the

background. The water tank is a typical PGE 25,000 gallon water tank. The station would be a little over 400 feet south of the tank and is hidden by the stand of trees.

Item: 2020.08.87 - Railway workers on Pacific Great Eastern #3 locomotive

Title: Railway workers on Pacific Great Eastern #3 locomotive

Reference code: 2020.08.87

Date: [between 1913 and 1923] (date of creation)

Scope and content:

Photograph depicts the Pacific Great Eastern Railway #3 locomotive from the Davenport Locomotive Works. Two railway workers lean against the front of the locomotive for a posed portrait. The individual at left may be Angus McRae, a PGE locomotive engineer.

More information about the locomotive, Pacific Great Eastern #3:

The locomotive was built by Davenport Locomotive Works in Davenport, Iowa in February 1914, serial number 1477, for Patrick Welch, one of the developers (Foley, Welch & Stewart) of the PGE railway. Most of the early equipment, although lettered with the Pacific Great Eastern name, was owned by Patrick Welch. The Provincial Archives in Victoria holds a document showing that Welch sold all the equipment to the newly incorporated Pacific Great Eastern Equipment Company, of which he was also a director, on 14 June 1916 in exchange for 6000 shares in the company. Much, if not all, of the equipment had PGEEC "ownership plates" applied during the 1916-1918 period. It was not until the Provincial Government acquired the railway (and the Equipment Company) in 1918 that the equipment actually became the property of the railway. Pacific Great Eastern #3 was a switching locomotive with an 0-6-0 wheel arrangement and eight-wheel tender built to a standard Davenport design.

Title: Railway workers on Pacific Great Eastern #52 locomotive

Reference code: 2020.08.88

Date: [between 1913 and 1923] (date of creation)

Scope and content:

Photograph depicts Pacific Great Eastern Railway #52 locomotive with railway workers posed on the locomotive for a posed portrait.

More information about the locomotive:

Pacific Great Eastern #52 locomotive was built by Montreal Locomotive Works in 1913 and delivered to the PGE in November of that year together with a second identical locomotive, Pacific Great Eastern #51. They were relatively light road locomotives of the Consolidation type (2-8-0 wheel arrangement) and, prior to dieselization of the railway in the late 1940s - early 1950s, were the only Montreal-built locomotives the railway owned. All subsequent steam locomotives built new for the Railway came from the Canadian Locomotive Company in Kingston, Ontario. There were also two earlier second-hand locomotives which the PGE acquired when it took over the Howe Sound & Northern Railway (previously the Howe Sound, Pemberton Valley & Northern Railway) and two additional steam locomotive purchased second-hand from the U.S.

Item: 2020.08.91 - Moran Canyon near Lillooet

Title: Moran Canyon near Lillooet

Reference code: 2020.08.91

Date: [between 1913 and 1923] (date of creation)

Scope and content:

Photograph depicts a view of the Fraser River, scrub land, and mountains in the Moran Canyon area near Lillooet.

Physical description: 1 photograph : b&w

Note [generalNote]:

Part of the Pacific Great Eastern Railway Region Photograph Collection

Physical condition:

Photograph received adhered to acidic paper (possibly excerpted from an album). Item is in poor condition: discoloured, brittle, warped, and cracked. Remains of the acidic paper and glue exist on photograph verso.

Alternative form available:

Item is digitized and available in high-resolution TIFF and JPEG formats. Digital access JPEG available here has been retouched for increased visibility.

Restrictions on access:

No restrictions.

Conditions governing use:

Personal or academic use of materials is welcomed under the standard fair use and educational use clauses of Canadian Copyright Law. Commercial use is, however, forbidden without the express permission of the copyright holder. For information on obtaining written permission from the copyright holder, please contact the Northern B.C. Archives and Special Collections.

Publication status:
